The Message
from his Excellency Minister of Education

Dear teachers and students,

As education is the foundation of progress and development in all countries, curriculum is one of the most important elements of education. In our country the new curriculum is designed in accordance with the modern academic developments and needs of the people. It is obvious that the scientific developments and the needs of the people are also in progress constantly. Therefore, it is necessary that curriculum to be developed scientifically and precisely according to the requirement of the people as well. Therefore, the curriculum must not be under the influence of political changes, ideologies and personal wishes of the people.

The text-book that you have in your hand is precisely projected in accordance with these stipulations and qualifications. Scientific and useful topics are added to the book and active participation of students in learning process is intended as a part of plan in the teaching methods.

I hope that the book will be taught in accordance with the active teaching methods, the teaching guide and the intended curriculum plan. The guardians and parents of the students are also required to support their daughters and sons in a qualitative education constantly to attain the goals and objectives of the education system and to have desirable achievements for students and our country. I am sure that our respected teachers will discharge their responsibilities honestly in the effective implementation of the curriculum.

The Ministry of Education is working constantly to develop the curriculum according to the teachings of Islam, sense of patriotism, scientific standards and the utter requirements of the people. So, all the academic personalities, scholars in the field of education of the country, guardians and parents are requested to support our authors and writers in further improvement of the compiling of textbooks by their constructive perspectives and suggestions.

I am grateful and wholeheartedly appreciate all the authors who participated in the preparation and compiling of this book and all the institutions national and international and other friendly countries who co-operated us in the preparation and codification of the modern curriculum, and in the printing and distribution of textbooks.

May Allah help us.

Best regards,

Farooq Wardak
Minister of Education
Introduction

Rational for English Language

Studying English Language, as a very effective foreign language is crucial and essential for the people of Afghanistan because of many reasons:

a. It can enable learners to communicate with other people and acquire needed information.

b. It can help students and scholars to get knowledge about the daily life, culture, religion, politics, science and the technologies developed in English Language, and use the knowledge in the development of their country.

c. It can help the students and scholars to learn about the contributions of great writers, thinkers, scientists, poets, inventors, statesmen in the progress of the people’s of this language.

d. It can help our statesmen understanding international law and culture and consequently, improve international relations of Afghanistan with the nations of the world.

e. It can help our people to promote their business and strengthen the economy of the country.

f. It can help our religious scholars to communicate the people of the world, comprehend their culture and the way of life, and accordingly preach them the precious Islamic teachings and values. Consequently, promote mutual understanding and conviction.

B. Choose a group member and say two differences between your schedule and his/ her schedule.

Reading

Read the paragraph and then answer the questions.

Look around you. Where are you now? There must be a clock around you. Why is that? It is because time is important. You build your routine around time. You wake up at a special time every morning and sleep at the same time every night. During the day, there are things you do that do not change such as having breakfast, lunch and dinner. These are our Islamic teachings to use time wisely; say our prayers on time and be punctual on our works and duties, to serve our people and make Allah (SWT) pleased. Time never stops and never goes back. Use it well, while you have it.

1. This paragraph is about:
   - daily routine
   - time
   - clocks

2. Why should we use time well?

3. What are the teachings of Islam about time?

What do you know about the food pyramid?

There are four main food groups; Bread, Cereals, Rice and Macaroni are the first group. They give us B vitamins and starch. We need four servings a day from this food group. Fruits and vegetables are in the second group. They give us vitamins A and C. Fruits also give us sugar which does not harm us like the one in candy. Milk, butter, cheese, and yogurt are in the third group. They give us vitamins and calcium. These are important to make our bones and teeth strong. We must have milk or other dairy products three times a day. Meat, fish, eggs, beans and nuts are also in this group. All these kinds of food help to build our muscles. We must have at least two servings of these. The fourth group includes fats, oils, and sugar. We must eat very little of these types of food. To be healthy it is important to eat different foods from each group.

Reading

History of Cheese

Cheese was first made more than 4,000 years ago by Asian people. Later cheese making spread to Europe. Cheese is a food consisting of proteins and fat from milk, usually the milk of cows, buffalo, goats, or sheep. It is produced by coagulation of the milk protein casein. Cheese is full of calcium which is necessary for your bones. However, cheese takes long time to digest. This is because cheese often has a lot of fat. Nowadays, low-fat cheese is made and sold at supermarkets. No matter where it comes from, you have to watch how much cheese you can eat every day.

1. Who made cheese for the first time?
2. When it was made?
3. Why cheese is good or bad for you?
4. What is cheese consisting of?
5. What is cheese made of?

In groups: Look at the map and ask each other questions about the weather in different places.

Student A: What is the weather like in Ghor?
Student B: It is sunny and hot in summer.
Student C: It is cold in winter.

Reading

Read the passage and answer the questions,

Do you like traveling? Would you like to see different types of weather? Then go to Africa! Africa is a large continent. Half of the continent is south of the equator and other half is north of it. That is why the four seasons can be seen throughout this continent in the same month.

During July and August, the Tunisians, Egyptians and Moroccans enjoy the warm summer sun. However, for the South Africa, July and August mean winter. The weather there gets very cold, but it never snows.

Cameroon, Nigeria and Rwanda are around the equator. It is usually hot and humid there and it always rains. For this reason these countries have many forests and trees.

There are two deserts in Africa. They have no rain. Hot and dry winds blow in these deserts all the year around. If you plan a visit to Africa make sure you see three seasons in one month.

1. The main idea of this reading is:
   a. deserts in different countries.  b. weather in Africa.  c. summer in the Africans continent.
2. There are different seasons in the same month in Africa. Why?
3. What kind of clothes does the South Africans wear in July?

Lesson 2

Unit 16

Reading

Read the paragraphs and then answer the questions.

Weather forecast

If you watch the weather forecast on TV, you probably know why my job is important. I can help you decide what to wear, or tell you if it is a good time to the park. Sometimes the information I give people about the weather can save lives. Pilots need to know what the weather will be in order to fly their planes safely. Some parts of the world have severe storms. The people need to know when they are coming so that they can be prepared. I use different tools to help me predict the weather. That is a radar map. It shows where it is raining.

Forest

Forests are an important part of our world; because they are home to thousands of plants and animals. Many of these plants release oxygen that we need in order to breathe. Some plants are important because; we use them to make medicines. My job is to study forests in different parts of the world and see what we need to do to keep them for future generations.
